

DEPARTMENT OF COMPUTER SCIENCE
Graduate Admission Sheet

Applicant's Name: Fortune Nnadi

Date: June 11, 2018

Degree Sought: MSCS

RN: 1755027348

University: Micheal Okpara Federal University

Degree: Computer Science

TOEFL: 107

GPA: 3.2799999999999998

GRE: Verbal: 154

Quantitative: 150

Analytical/Writing: 4

CS rank: 84.099019607843147

Recommend: ACCEPT

University Rank:

DESIGNATIONS

COMPUTER SCIENCE (MS)

| | | | |
|----------------|---|-------------------------|------------|
| Organization: | Edward E. Whitacre Jr. College of Engineering | Delivery: | On Campus |
| Department: | Computer Science | Submitted Date: | 06-04-2018 |
| Program Level: | Masters | Completed Date: | 06-07-2018 |
| Enrollment: | Fall 2018 | Verified Date: | - |
| Campus: | Lubbock | Application Status: | Complete |
| | | Academic Update Status: | - |
| | | Last Updated: | 06-07-2018 |

SUPPLEMENTAL QUESTIONS

ACCELERATED BACHELOR/MASTER PROGRAM OPTION

- 1 FOR CURRENT TTU UNDERGRADUATE STUDENTS ONLY: Are you applying for the accelerated bachelor/master program?
Note: You MUST be enrolled in the Bachelor of Computer Science program to be eligible for the accelerated bachelor/master program option.
Answer: No

AREA OF SPECIALIZATION

- 1 Please choose an area of specialization in the Department of Computer Science:
Answer:

Academic Records of: NNADI FORTUNE EKENE Sex: MALE
 Date of Birth: 06TH OCTOBER, 1987 Reg. No: MOUAU/09/15067
 Year of Admission: 2009/2010
 Mode of Admission: DE/UME/PRE-Degree: DE
 College: NATURAL AND APPLIED SCIENCES
 Department: COMPUTER SCIENCE Course of Study: COMPUTER SCIENCE
 Number of Years Completed: FOUR (4) Level of Study Completed: 400
 Nationality NIGERIAN State of Origin: ABIA
 Local Government Area: IKWUANO
 Permanent Home Address: No. 27^A OLD OLOWORA ROAD
ISHERI LAGOS STATE

Next of Kin/Address: MR. DAVID NNADI,
NO. 27^A OLD OLOWORA ROAD ISHERI LAGOS STATE
 SPONSOR/ADDRESS: SAME AS NEXT OF KIN
 Reason for Leaving: COMPLETION OF STUDY

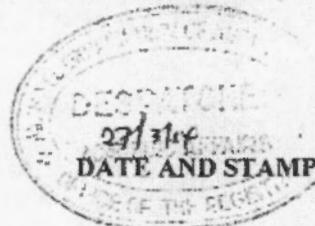

Graduation: Degree: B.Sc. Class of Degree: SECOND CLASS HONOURS UPPER DIVISION
 Year of Graduation: 2011/2012 Date: 19TH NOVEMBER, 2012

Interpretation of Grades

| Percentage Scores | Grade | Grade Point | Cumulative Grade Point Average | Class of Degree |
|-------------------|-------|-------------|--------------------------------|--------------------------------------|
| 70-100 | A | 5 | 4.50-5.00 | First Class |
| 60-69 | B | 4 | 3.50-4.49 | 2 nd Class Upper Division |
| 50-59 | C | 3 | 2.50-3.49 | 2 nd Class Lower Division |
| 45-49 | D | 2 | 1.50-2.49 | 3 rd Class |
| 40-44 | E | 1 | 1.00-1.49 | Pass |
| 0-39 | F | 0 | 0.00-0.99 | Fail |

Graduate Admissions Office
Computer Science Department
Texas Tech University

Dear Admissions Committee,

This letter confirms my decision to apply to your Master's program for the 2018 fall term. After working for several years, I believe that this is the next logical step in advancing my career, and I am pleased to continue my education.

My activities since acquiring my first degree include:

- Serving as the Team-Lead for chop4naija, the foremost online food directory in Nigeria.
- Serving as the IT officer for Ike Ujah and company, a chartered accounting firm in Nigeria.
- Serving as the General-Secretary of the ICT community development service, an organization which is dedicated to the development of communities through the use of information technology. Together we have won several national awards.

Additional qualifications include:

- Serving as an intern in the ICT department of the Nigerian Airspace Management Agency.
- Attending a six months software engineering course.
- Attending a six months French literacy course, as well as being able to speak Igbo, Yoruba and English.
- Attending a certificate course in project management.

My commitment to learning and transforming my society through the use of information technology is absolute, and this is my continuous goal.

I have submitted my online application to your educational institution along with all other supporting documents.

Thank you for your consideration. I look forward to hearing from you.

Sincerely,

Fortune Ekene Nnadi

Computers have found relevance in every facet of life: business, education, medicine, entertainment and many more. In consonance with this fact, more people are likely to own at least one computing device whether it is a desktop computer, a laptop, or a smart phone. Consequently, there has been a commensurate increase in the demand for computer scientists who write softwares that enable computers to work efficiently. They often have degrees in computer science, but earning this degree is no easy feat.

Being one of the top 2 students in my class, I was frequently approached by my course-mates for a better understanding of certain courses. I progressed from teaching individuals to teaching groups of students, and I derived joy from teaching courses like Automata theory and finite languages because they taught me how to think analytically. While tutoring, I was able to identify the root of their academic struggles: they were primarily concerned with passing the exams, rather than acquiring knowledge from these courses. An instance of this was Godson. I met Godson in our second year as computer science students in the university. He was having a hard time studying regular expressions and was about giving up. In order to stimulate his interest, I told him about the applications of regular expressions in validating credit cards and web forms. He attacked his studies with a desire to acquire knowledge and ended up getting an "A" for his effort. Today he works as a software developer for a government parastatal. I have decided to undertake a graduate study in computer science to enable me to secure a job as a lecturer, so that I can help other students like Godson attain their full potential as computer scientists.

As a member of the ICT Community Development Service of Abeokuta, serving in the capacity of General-Secretary, I have been involved in several notable projects one of which was the "Empowerment in ICT Conference". This conference was designed to expose students resident in Abeokuta to the learning opportunities online in response to the continuous decline in the academic performance of students over the years. While discussing with some of the attendees who happened to be computer science students, I was informed about the challenges they were experiencing while learning object oriented programming (OOP). Upon inspection, this has contributed to the paucity of software developers in my country. For this

reason, I will be investigating the applications of computer-assisted education in object oriented programming for my thesis. The goal of this research will be to develop an application that will introduce its users to the basic concepts of OOP, lead them to master more advanced concepts, and it will also be capable of making intelligent suggestions to enable users avoid the common pitfalls of programmers.

The resources available to American research institutions in fields like computer science are unrivaled. This robust availability of funds amounts to not only better programs, but a better educational experience for students. Therefore, it comes as no surprise that 46 of the top 100 computer science programs are in the US. Streamlining my search based on research activity, sports activities, cost of tuition and (warm) climate, I have decided to apply to Texas Tech University. I was able to review the opinions of over 200 past and present students of Texas Tech using sites such as www.Quora.com, www.niche.com, and www.studentreviews.com. From these reviews, I was able to come to the following conclusion: Texas Tech offers rigorous academic programs that prepare students for success professionally and for advanced studies. Being the product of a rigorous program, these are the qualities I desire the most in a higher institution of learning.

I am excited at the prospect of joining the Cyber security research group, particularly in the area of "Safe and secure software development". I believe every IT professional should possess a sound understanding of cyber security issues as it pertains to their area of specialization and by joining this group, I will be able to acquire such knowledge.

I look forward to learning from Associate professor J. Nelson Rushton, as we share similar research interests. Hopefully, come fall 2018, this desire will become a reality!

TO WHOM IT MAY CONCERN

RE: MR FORTUNE EKENE NNADI

The above name has been known to me for over 10 years. He is a young man of high integrity, articulate and result oriented. Indeed he is level headed and always outstanding in whatever task he sets out to do. These attributes could be seen from his Higher School up to the University where he obtained a Second Class Upper Degree in Computer Science. In all, he is always head and shoulders above his peers.

He has the capacity and potentials to undertake higher degree studies in your university that will lead to the Award of Master Degree (MSc) in Computer Science. In fact, he will make a very good research fellow that can work independently with minimal supervision to the benefit of your school and mankind in general.

Obviously, he is a dependable material that will aid learning. His desired field of study at the Texas Tech University will offer him the opportunity to interface with the best brains and names in this field and provide a platform for him to be in tune with cutting edge technology in the field of computer science that will help him actualize his heart desires, as this will reposition him for challenges ahead in the future.

Please have the commitment of my assurance that fortune will make a reliable and dependable Postgraduate Student at the Texas Tech University.

I recommend.

LETTER OF RECOMMENDATION

RE: NNADI FORTUNE EKENE

Msc Computer Science

I have known Mr Nnadi Fortune Ekene for more than Eight (8) years during his undergraduate days. He has an excellent acumen intellectually. He is highly qualified for the programme he applied as he graduated with CGPA of 4.21, with this; he has laid a good academic foundation for himself. Also, he displayed an excellent performance for research activities as he made ‘A’ grade in both his final year project and industrial training technical report.

Mr Nnadi is truthful, humble, obedient, and trustworthy. More so, he is the general secretary of the ICT Community Development Service of Abeokwuta Ogun State Nigeria, which has carried out several projects/conferences that include “Empowerment in ICT”.

Moreover, Mr Nnadi is physically, emotionally and academically stable. I therefore strongly recommend his application.

Thank you in anticipation.

Engr. Dr. Nnochiri, Ifeoma U.

Letter of Recommendation

It is of great pleasure to introduce Nnadi Fortune Ekene to a masters degree programme in your prestigious university.

I am currently lecturer at Michael Okpara University of Agriculture, Umudike , Department of Computer Science, where your applicant graduated as the second best student of 2011/2012 set.

He was my student, in a taught course in programming where his scores are excellent enough for him to proceed to further studies regarding computer science or information technology.

Overall Nnamdi Fortune Ekene is highly intelligent and possesses good analytic skills. This made him to start up a software group in the department which the department staff co-ordinating the group till date. The group has won several national software competition within and outside the state.

His interpersonal skills is exceptional. He respects his classmate and the faculty members. This has earn him good reputation amongst his classmates, especially when challenges that requires critical reasoning to resolve. His communication and written skills are concise enough for comprehension, being driven with eloquence and admirable charisma. This proved him worthy in both character and learning.

His average cumulative was close to a first class, and today his excellent academic record ginged most of his successor. This made them to work harder to be like him.

I would always be proud of him anywhere as my student with exceptional academic excellence and would attest and recommend for any of his future endeavour.

Kindly accept him for a pursuit for further studies as he wish to abide to all rules and regulation that governs the modus operandi of your great citadel of learning.
